The CORE Vault

CMMC Compliance, Cloud-Based CUI Enclave
The simple security solution for small businesses.

| Implementation Time 2 weeks | Affordable for Small Business | CMMC Online Training Provided | Policy Templates | Compliant CUI Enclave* |

WHAT IS THE CORE VAULT?

The CORE Vault is a managed enclave solution designed to help your organization deploy and maintain a secure AWS GovCloud environment for handling Controlled Unclassified Information (CUI) and Federal Contract Information (FCI), in alignment with DFARS 252.204-7012, NIST SP 800-171, and CMMC Level 2.

You retain full control and ownership of your AWS GovCloud account—CBS provides expert setup, hardening, monitoring, and compliance documentation support.

Rather than overhaul your entire network, CORE Vault enables you to isolate CUI in a compliant virtual desktop environment tailored to meet federal cybersecurity requirements.

CORE Vault
Covers 82 out of 110 Requirements

SPRS Score

Policy Templates
Covers 28 out of 110 Requirements

Be CMMC Compliant and ready for Certification.

Visit www.thecoresolution.com/core-vault to learn more or email
info@thecoresolution.com to request a quote or talk to a consultant.

* CORE Vault is a compliant CUI Enclave deployed in your AWS GovCloud Account that is setup for you.

CMMC

CMMC COACHING PROGRAM

For companies not ready for CORE Vault, our standalone CMMC Coaching Program offers document support, guided training, and self-assessment tools. It includes in depth training, dedicated consulting support to complete critical compliance documents, expert guidance through the self-assessment process, a road map to technical remediation, and a review of your System Security Plan (SSP) by an independent subject matter expert (SME).

TRAINING AND CONSULTING

- Online training for your Staff and Management
- Consulting support for document completion
- Assistance with document control and secure access
- Employee security awareness training

COMPLIANCE DOCUMENTATION

- A guided SSP and POAM development
- Customizable Security Policies
- Security Metrics, Incident Documentation, and Objectives
- Management Review templates

CORE SECURITY SUITE SUPPORT

- Dashboard-driven Progress and Accountability Tracking
- Management Dashboard for Reporting and Documentation
- Auto-generation of SSP, POAM, SPRS Score, Risk Register, and Asset Inventory using guided inputs
- Version-controlled document and policy management through the CORE Security Suite
